Mr. Jean-Pierre Clamadieu Attended the 31st IBLAC in Shanghai

Mr. Jean-Pierre Clamadieu, Chairman of the Board of Directors of ENGIE, accompanied by Charlotte Roule, ENGIE China CEO, attended the 31st International Business Leaders Advisory Council for the Mayor of Shanghai (Shanghai IBLAC) and delivered a speech titled *“Developing a Zero-carbon Transition Roadmap in the Yangtze River Delta (YRD) region.”* This year, Shanghai IBLAC dedicated to the theme: Enhancing the capacity and core competitiveness of Shanghai.

Mr. Clamadieu’s speech focused on promoting the integrated and high-quality development of the YRD region. **His primary recommendation was that the YRD region should, acting as a pioneer of China and the world, develop a roadmap for zero-carbon transition in a bid to reduce ecological footprint and accelerate the transition to a new open economy, making the region attractive for “global resources, funds, technology and talent.”** He also emphasized that zero-carbon transition is both feasible and achievable and the technologies are available today.

Before attending the Shanghai IBLAC, Mr. Clamadieu also attended the Green Mobility Day organized by ENGIE China and its subsidiary, EVCHONG, for customers, partners and stakeholders. **“Green Mobility is fully part of ENGIE overall zero-carbon offers for cities. Our objective is to contribute to adoption of clean energies and to an efficient usage of energy for mobility,”** Mr. Clamadieu said.

Founded in 1989 by Shanghai Mayor, Zhu Rongji, who later became Chinese Premier from 1998 to 2003, the IBLAC is composed of Chairmen and CEOs of the world’s best-known multinational corporations and serves as a platform for industry leaders across a wide range of sectors as well as geographies to contribute their expertise and ideas to the urban development of Shanghai.

“ENGIE has been a member of Shanghai IBLAC since 2000, and we have seen the city grow into a truly global business and economic powerhouse. I am proud that we have contributed to Shanghai as well as China’s remarkable development. We are committed to becoming your long-term, trusted partner,” Mr. Clamadieu said.

About ENGIE Group

We are a global energy and services group, focused on three core activities: low-carbon power generation, mainly based on natural gas and renewable energy; global networks and customer solutions. Driven by our ambition to contribute to a harmonious progress, we take up major global challenges such as the fight against global warming, access to energy to all, or mobility, and offer our residential customers, businesses and communities energy production solutions and services that reconcile individual and collective interests.

Our integrated, low-carbon, high-performing and sustainable - offers are based on digital technologies. Beyond energy, they facilitate the development of new uses and promote new ways of living and working.

Our ambition is conveyed by each of our 160,000 employees in 70 countries. Together with our customers and partners, they form a community of imaginative builders who invent and build today solutions for tomorrow.

About ENGIE in China

ENGIE has been developing relationships and cooperation with Chinese partners since more than 30 years, with two significant recent milestones, the creation of a representative office in Beijing in 2008 and the set-up of a business unit to develop industrial activities in 2014.

Leveraging on the Group's know-how and solutions, ENGIE aims at becoming a benchmark player in China's energy transition, developing decarbonized, decentralized and digitalized solutions in the areas of renewable power and smart energy solutions (whether they are targeting cities or B2B customers), as well as facilitating ENGIE and Chinese companies to jointly develop projects in third-party markets.

ENGIE China is mainly present in the cities of Beijing, Shanghai, Chongqing, as well as in the province of Sichuan, having developed various joint ventures in the field of solar power, distributed networks, energy efficiency services, and engineering services.
